

My impressions about the week

This exchange was for me very interesting. I learned a lot about a new culture and a new lifestyle. There were so many different between the Spanish and the German people.

But the best day was the day in Potsdam. Despite of a lot of rain we had a very great day. We saw many, many things like the castle Sancoussi, the „Neue Palais” and the big garden from the castle.

The best of these events was to walk with big shoes through the Neue Palais. We had so much fun and everybody looks so funny. After some informations about the castle and the park we saw the „Holländerviertel”. We had no luck with the weather because it rains the whole day. So we walked in the rain to the „Holländerviertel”. That was our last station on this day. The pick of the basket was to sing a song in our bus. The Spanish and the German class sang together. That was a good end for a rainy, hard and funny day.
