

My impressions about the Student exchange

I think that the week from Friday the 4th to Thursday the 10th of April, 2008, was very exciting and funny. Of course, there were some difficulties, for example to handle the problem with the bathroom in the morning, but I think that is normal in such a student exchange.

On Tuesday we went to Berlin. In a good mood and with nice weather we watched some important sights of the capital, for example the

“Reichstag”
or the “Brandenburg
gate”.

On Wednesday we went to Potsdam and visited castle “Sans Souci”. In spite of the rainy

weather we had a lot of fun when we walked through the park in front of the castle, everybody with his umbrella.

All together, it was a but strenuous time look forward to go to October!
