

My exciting week with Helena

Before the spanish students arrived I was really nervous!!!!:)

Every day we did a lot of funny things and all of us didn't want to do something alone with his exchange partner!!! And that was our luck, because nobody have to do s.th. with his partner.

My mom was the person who had the most fun in this week, because she learned new english words and improved her "little" english vocabulary. Every Morning Helena ate toast.

Helena and I

Have a goood realltion to each other and we talked a lot of!!

But the best was really the aspect that we, the german students, spend time with each other and we all knew us better.
