

My personal impressions about the exchange with Spain

The first main task for me in this exchange was to get along with my exchange partner. My exchange partner was a girl named Paula who was just the way I am and straightaway we understand us very well.

The first point we did was coming home and get to know each other. I showed her my village and some friends of mine and she told me the differences to Barcelona. It was a pleasant afternoon. On Saturday we went to a birthday party and I get to know most of the other Spanish students. It was very funny and we had a lot of

fun. The Sunday was good, too. We played Volleyball in our school and after that we had a little Barbecue. In my mind it was a relaxed weekend and the best start to get to know each other. Over the week we did a lot of things. We went to Potsdam and Berlin and we showed them Luckenwalde. Sometimes it was very difficult because I had no time for myself and all the time we had to occupy our exchange partners. They were very loud and sometimes a little bit demanding but all in all I had a good time and I had a lot of fun with Paula. It was fun to speak English and I think it will help me in the future to be not so shy of speaking English. The last point I want to say is that I have the feeling that I like my class more

than before. We did so much together and before I never talked with some of them.

The fact that we had to manage a lot of things alone at this week maybe supported our class very well.

I look forward to go to Barcelona and it will be much fun!
