Before the exchange started my exchange partner and I wrote e-mails. Her name is Cristina and she seemed to be a nice girl. Days before the Spain students came, I tidied up my room and the room for her. My parents drove for two weeks in holiday and I was alone with my boyfriend Ben. I was very excited!

It was **Friday**. After school I went home and I looked if all things are okay. After Ben arrived, we fetched Cristina from the station. She said "it's beautiful" when she had seen our house. Later we drove to Luckenwalde and show her the town with eating ice. In the evening I took her to the Keyboard orchestra and she liked the music. After it we met some students with their exchange partner in a bar. It was very funny.

On the next day, it was **Saturday**, we drove with Kim, a German student, and her exchange partner to Berlin. We visited the "Pergamonmuseum" and went shopping in the "Alexa" Shoppingcenter. We all liked this day.

On **Sunday** all students and the teachers came to school and we played Volleyball and after it we made Barbecue, which tasted very well. We enjoyed this day.

**Monday** was the first school day. Andrea and I made a presentation and showed the Spanish the school. We sometime look in the rooms and I think the students liked it to see lessons in German. After a little German-Spain-lesson two students of our group show them the town and I went to my normal lessons. Ben and I fetched Cristina from the "Kreishaus" and we drove home. In the evening we meet the others in a restaurant called "Bel Fiume" in Luckenwalde and together we ate

dinner. The food taste very good and when all people finished, we went to the bar "Camälion" to drink some cocktails and to talk together. Some of us played cards. I liked this night.

Tuesday we drove with the teachers to Berlin and visited some sights. The first station was the "Reichstag". Some German students told something about it. Than we went to some other stations like "Holocaust Mahnmal", "Brandenburger Tor", "Checkpoint Charlie", "Alexanderplatz" and more.

The last whole day was Wednesday. We went to Potsdam but it rained a lot of and it was cold outside. We visited the "Neues Palais" and "Sanssouci". The "Holländer Viertel" was the last station. It was okay but I didn't like the rain. On the last evening we met together again. In the bowling hall we spent the time. It was very funny

Thursday was the day to travel home. We made breakfast in school and after it we brought the Spanish to the train station in Luckenwalde. Mrs Fritsche, our teacher, made photos of every student with partner. Than the train came, the last leaves followed and the Spain students drove to Schönefeld to fly back to Barcelona!
