...the first week in April 2008...  
...it happened Spanish...*

*It was a memorial week with a lot of new experiences. When the spanish students arrived my heart was beating fast. At first I was very excited and forget all what I wanted to say, when meeting Laura Medrano the first time. But the nervousness was blown away in a few minutes. Laura and I were mostly talking and we get along very good!!! On Saturday, Katharina, her exchange student Christina, Laura and I have made a trip to Berlin...that was so funny and enjoyable. On Sunday was the first meet of all the students. Some students played volleyball, soccer or badminton. After that sportive afternoon, we indulge in a barbecue and a comfortable get-together. Monday was the official greeting at our school with all the students, teachers and the headmaster. After that, the spanish students have seen our Friedrich-Gymnasium and the city Luckenwalde. We have made a kind of german-lesson with the spanish students and it was very funny. I hope the trip to Berlin was very interesting for the spanish pupils just like the trip to Potsdam. We showed them the most important sights of Berlin like the parliament, the Checkpoint Charlie, the Brandenburger Gate, the Alexanderplace etc. I haven't been with the trip to Potsdam but I think that this trip was interesting just like the one to Berlin even though it had rain all the time. The week was running so fast and on the day of the departure we have a breakfast together. After that, we accompany them to the trainstation and have a last adoption.*

*Finally I would say, that this week was very interesting. I learn a lot of the spanish culture from Laura. I think that all the students had a lot of fun with him or her exchange student, even if there was maybe some problems. To my mind, we get to know mostly about their life(-style) in Barcelona in the evenings when we were in the bar, café, restaurant or bowling alley... They are very open minded, friendly and mostly in a good temper... I think that all of us were very tired after that week, but it was profitable. The anticipation to improve my english in this week was excelled. At first it was a little bit difficult for me to understand the „spanish-english“ because of the dialect from the spains, but after a time I adjust at this. It was very funny when the english vocabulary was missing and we tried to explain the words with sigts or motions. When Laura told me something about the culture and lifestyle there in „Barca“, I was very surprised about some facts. Nevertheless, I hope that we can carry our english experiences in October on and will see and learn a lot of the land and mentality.*
