

Barcelona-Luckenwalde-Connection

From 4th to 10th April there was a very exciting time for me and my family. Our english course made an exchange with spanish pupils from the capital Barcelona.

Of course it was very stressful because you didn't want to feel your partner boring. On the first day when they arrived we were in a lounge. It was good for learning something about them. On Saturday, first we were to a football match and after that to a handball match, too. The other days were planned, that the spanish pupils see very much from our area and our school. One day they were in Potsdam, Berlin or in our little city Luckenwalde.

Arriving in Berlin

For me, it was not the first time that I had a person from somewhere else. But I have to say that it was the best time. It was a big advantage that all of my classmates had an exchange-partner. So everyone wanted to make something with the whole group after school.

It was perfect that I have a brother who has many friends in my class, too. So if I wasn't able to make something with my partner, his name was Oriol, my brother went with him.

After the week his father phoned at home and told us that Oriol liked very much having two teens who made something with him.

My parents are enthusiastic from the week where the exchange took place. Both of them said: **“He had pleasing manners and ate everything we made for him.”**

The adoption was sad and some of my classmates were crying a little bit. But we all know that we will see in october in Barcelona again!

The whole group in front of the "Reichstag"
