

Personal impressions

Before the Spanish students came I was not really excited, but I had already thought a lot about the week, because I did not have a lot of contact to my guest student before. In addition, I asked myself whether there would be any problems with the understanding. When I saw Carla for the first time, I immediately had a good feeling and this also remained in such a way. From the beginning on we got along well and were talking a lot. Before her arrival I was a little bit afraid that my English would be not good enough to talk with her. However, there were no problems, we could talk about everything. It was really fantastic, every day we did so many things and had so much fun together. Already after two days she was like a friend for me and she was able to integrate herself in our family; there were no problems. The best of all was the final party, because we were having a lot of fun in this evening all together and laughed a lot. If I think back to the week, then there was nothing bad. Of course, it was sometimes a little bit stressful, but I would do it again and again and the best would be if we could keep the Spanish students here. We are missing them so much now. But now I am already looking forward to March when we see them again. I am really happy that I take a part in this project.
