

One week and a lot of experiences

Before the week with the Spanish students I was a little bit frightened but also glad about their visit. I thought about possible problems with the English language or Julia's likes and dislikes. Maybe she wouldn't like me?_ That's why I was very excited, when we were standing at the airport and because of the delay of the train I was more excited than at the beginning_

But the week was very nice_ We liked each other (I hope =)) and also could understand, what the other one was saying. I think we all were sad about their flight back to Barcelona.

The only thing which was a little bit difficult, was to find some things to do here in Luckenwalde and surroundings. It was a enjoyable week and I met a lot of nice students.

I think it was easy to understand the Spanish students, but to explain something or tell them something about some buildings or other things was a little bit difficult (to find the right words).

But it got better in the second half of the week. All in all it was easy to understand each other.

In my opinion the last barbecue was the best thing_ We all knew each other better and had a lot of fun. But I also liked the visit to Potsdam, because the weather was very good and the park very beautiful.

I think the visit of the Spanish students innervates me and my family to find out more about the Spanish culture or other cultures. I also want to take part in an exchange project with Portugal.
