

MY PERSONAL IMPRESSIONS

Now one month has passed since our exchange and I'm happy about taking part in this project. Whenever I remember our time, I think we had a lot of fun together. The week was really nice.

Before the arrival of the Spanish pupils I had some fears. For example: What about the communication? In spite of our different languages the communication was no problem. My English is not the best, but I understood everything. Or: What happens when we don't like each other? But also this was no problem! The best were the evenings in the bowling alley or swimming hall. But we live in a village next to Luckenwalde, so we had to ask my parents if they can drive us by car. Since our shared week not so much has changed, only my mother tries to get better in English now. In general I have enjoyed the week. But I think the time passed by fast, unfortunately, too fast! Now I am glad about our flight to Spain.

I hope the time up to March passes fast!

Lisa
