

My personal impressions

The days before the exchange week started I was very nervous. I had thoughts like: What happens if my exchange partner doesn't like me or my family? or What happens if we don't find something to talk about? or What if I don't have the courage to talk in English?...

But now I can laugh about these thoughts. The whole week was a very exciting and an interesting experience!

Sometimes it was a little difficult to find the right words to start a conversation but on the other hand it was really easy to talk in English.

(I never thought it's so easy to speak English!). It does not matter if you make little mistakes because the others understand you anyway. So it was very funny to talk with each other.

I liked the day in Potsdam most because it

was a very sunny day and I liked the park of Sanssouci. I also enjoyed to go bowling with some girls of our group and the evening in the "Zebra". Of course, I especially liked the evenings when

Carolina and I talked about anything which came to our minds. It was absolutely funny all the time!

My family were happy to host Carolina. They all liked her, especially my little brother David because Carolina often

played soccer with him. Also my older sister enjoyed it to speak English.

I liked that week and I'm very happy that I have decided to take part in this exchange!!
