

## Personal impressions of the visit of the Spanish exchange students

Before the Spanish students came, I was worried that I don't know what I should say, when María del Mar arrived or that my English will be a problem. But all these fears were in vain. I got along with her very well. We talked a lot; when she spoke German it was often funny. At some evenings María del Mar tried to teach me a little bit of Spanish, too. My parents were very happy about her and although they don't speak English very well they always asked about the customs in Barcelona.

She brought us a lot of presents from Barcelona, so my mum and dad got a beautiful book from the city. My parents were excited. I think they are envious that I can see all this in March.

For me the whole week was nice and a good experience, but I think the day in Potsdam was the best. In my opinion Berlin or Leipzig are not so beautiful, furthermore this day was the first when the sun shone. However, for me the afternoons, when we met other students and their exchange students were especially funny. For example we were with Rike, Cristina, Laura and Julia at an ostrich farm or bowling.

I hope María del Mar enjoyed the week and she had fun with my family. I am sure we will have wonderful days in Barcelona, when we go there in March.
